To Whom It May Concern,

It is my pleasure to write a letter of recommendation for Adam Fiveson. I have known Adam for over 25 years. I first became acquainted with Adam as a faculty member here at the Art Institute of Fort Lauderdale. Adam Fiveson was a student attending the college in the Graphic Design program pursuing his associate's degree.

Recently Adam came back to the college to complete his bachelor's degree in Graphic Design. During his portfolio review I had an opportunity to visit with his web design projects. The websites he presented were very advanced technically, but in addition, they were aesthetically quite good. The sites are logically organized and take the user's experience into consideration. I could see by examining the code that Adam can code using solid technical knowledge of advanced programming languages based on industry standards.

Adam is an energetic and goal-oriented person. Give him a task to perform and it will be carried out efficiently and on time. I know for a fact that Adam Fiveson takes great pride in his work and will not disappoint any place of employment.

I can offer only the highest recommendation for Adam Fiveson I believe he has all of the qualities that make an excellent employee and I hope you will seriously consider him for any promotion he has applied for. Please contact me to further clarify any questions you may have. I am including my phone number for your convenience.

Respectfully,

Debbie

To Whom It May Concern:

It's a rare occurrence that I get to write a letter of recommendation for an employee that I am truly happy having in my division, however Adam Fiveson is a rare breed who will strengthen whichever division he is working for. He has made clear his desire to help set the visual tone; not just for the websites we create, but for the entire District. I simply cannot think of anyone better suited to this task.

I have worked with him many times on several projects, including the Blueprint for Success which I presented to the Board and Dr. Avossa, and his ability to deliver this complex work on time and in a very aesthetically pleasing manner really gained my admiration.

I asked Adam to create our Technology in Motion for Education (TIME) Newsletter for us and he's presented us with a truly magazine quality publication each time, including a redesign from Technology in Motion (TIM) to the new title and masthead TIME. This will be coming out in the next few weeks, and I'm excited to see what that's going to look like as well.

Adam is a great designer who is capable of taking direction and leading others. He's worked well with our other employees and he's done tremendous things while working in our department.

Adam's technical abilities extend beyond being a good artist. He's very capable of web design, knowledge of technical capabilities and he's presented compelling information about the use of CMS platforms and web design as well. His experience in Ergonomics and Usability makes him an asset with regards to web development and information architecture.

I strongly recommend Adam Fiveson, and I am confident that you will be pleased with his ability and professionalism. Please contact me if you have any questions or wish to further discuss his qualifications, at PX 48773 or via email at deepak.agarwal@palmbeachschools.org.

Sincerely,

Deepak Agarwal, Chief Information Officer
